products
 at the
**cutting
 edge**

The Stratos range of aspirating products are capable of detecting the earliest trace of smoke from incipient fires without nuisance alarms. Cutting edge technology permits our equipment to operate reliably in dirty and dusty environments.

Stratos-HSSD has been extensively tested by major approvals authorities around the world including those in: UK, Germany, China, Australia, USA and Malaysia.

We offer the highest performance in the highest sensitivity class of smoke detection.

The new SenseNET monitoring and graphics package offers unrivalled features such as fault tolerant communication, audio voice messaging and easy to install site graphics.

For more information on the class leader, please contact:-
