

# Stratos HSSD®

Peter Fox, co-founder and Managing Director of AirSense Technology receives the Queen's Award from the Queen's cousin Mr. Simon Bowes Lyon.

## Making History

The Queen's Awards are the highest accolades that can be bestowed on a UK business. Recognised as the gold standard of corporate achievement, and awarded only to those with a proven record of excellence. It is the award that every business wants to win.

1999 saw the first ever Queen's Award for Technological Achievement with a fire detection product. That product was the Stratos-HSSD® aspirating smoke detection system from AirSense Technology.

Stratos-HSSD is not only the most sensitive laser based detection system available, it also incorporates the world-leading Artificial Intelligence system that guarantees maximum performance in environments as diverse as Clean Rooms to Casinos.
