## Queen's Award for Enterprise for International Trade

THE QUEEN'S AWARDS  
FOR ENTERPRISE:  
INTERNATIONAL TRADE  
2002

In 1999 Airsense Technology were proud to be the first recipient from the Fire Detection industry of the Queen's Award for Technological Achievement. This was awarded because of significant technological developments made by the Company in the field of early warning smoke detection systems.

2002 sees the Company win the Queen's Award for Enterprise, awarded for significant and sustained growth in global operations, with the majority of the companies products now being exported.
